## PERSONAL SUMMARY

Certified Special Effects Makeup Artist with over seven years of diverse experience in the industry. My expertise spans beauty makeup, prosthetics, sculpting, molding/casting, and body painting. In addition to my core skills, I have developed a remarkable talent for blood bladders for bleeding prosthetics that enhance realistic effects. This specialization has allowed me to contribute significantly to various projects while continually honing my craft. I have also ventured into prop fabrication and costume designing as a side passion. This creative exploration has enriched my understanding of visual storytelling and further complements my work in special effects makeup. My strong time management abilities ensure that I meet deadlines without compromising quality. As a dedicated team player who thrives both collaboratively and independently, I consistently prioritize attention to detail in every project. Notably, I contributed to Sony Pictures - Until Dawn, where I was credited on IMDB as part of the prosthetics crew.
